Ecological Services	MSFO, Jackson, MS	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	25% or Less	Valid State Driver's License	Duties include applying knowledge of principles/methods of fish and wildlife biology; of rare and listed species; and implementation of the Endangered Species Act and other pertinent environmental laws. Interpreting biological data in order to draw sound conclusions. Using digital data for natural resources mapping including GIS and other habitat mapping methods. Communicate and collaborate with others working toward shared goals.	No	No
Interior Regions 5 & 7, Ecological Services Bismarck North Dakota Field Office	Bismarck, North Dakota	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	Occasional Travel	Valid State Driver's License	N/A	No	No
Interior Regions 5 & 7, Ecological Services West Valley, Utah Field Office	West Valley, Utah	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	Occasional Travel	Valid State Driver's License	N/A	No	No
Fish and Aquatic Conservation	Missouri River FWCO; Blsmarck, North Dakota	This position is suitable for telework only during an emergency or natural distaster	75% or Less	Valid State Driver's License, must be able to lift 60 pounds and be able to work outside for extended hours.	This position will safely operate watercraft on river systems, Use a variety of database and spreadsheet programs, and works with partner agencies in a collaborative and cooperative manner. Also, implement the Endangered Species Act and recovery actions.	No	No
Fish and Aquatic Conservation	Missouri River FWCO; Blsmarck, North Dakota	This position is suitable for telework only during an emergency or natural distaster	75% or Less	Valid State Driver's License, must be able to lift 60 pounds and be able to work outside for extended hours.	This position works with GIS datasets to summarize and collect biological data, safely operate watercraft on river systems, uses a variety of database and spreadsheet programs, and work with partner agencies in a collaborative and cooperative manner. Utilizes ESRI Collector, ArcGIS Online, ArcGIS Pro, ArcMap, ArcPad, Avenza PDF Maps, Program R, R Studio, Q GIS, RivEX	No	No
Fisheries and Ecological Services (Habitat Restoration)	Anchorage Fish and Wildlife Conservation Office, Anchorage, AK	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	Occasional Travel	Valid State Driver's License	As a Coastal Program Biologist you will administer the Coastal Program for Alaska under the supervision of the Branch Chief for Habitat Restoration. As a member of the Habitat Restoration Program team in the Anchorage Field Office you'll join a dynamic and highly effective group that, together, administer the Coastal, Fish Passage, and Partners for Fish and Wildlife Programs and support three Fish Habitat Partnerships in southcentral and southeast Alaska. Our team includes several biologists as well as a Civil Engineer, Hydrologist, and Engineer Tech that enable us to complete our own in-house restoration designs and provide technical support across the entire Alaska Region. The diverse nature of our Habitat Restoration Program in the Anchorage Field Office offers the opportunity to collaborate and coordinate across these program areas. Applying knowledge of habitat restoration techniques, conservation technologies, and working with private landowners, Native organizations and communities, and other State and Federal agencies. Form and sustain partnerships with agencies, organizations, governments, and individuals to conserve and/or restore habitats that have been adversely impacted by human activity. Occasional travel is expected for this position in order to maintain our well-established and successful group of coastal program partners in Southeast Alaska, the Kenai Peninsula, and Southcentral Alaska or other regions. This position will include project management and executing cooperative agreements.	Discretionary entitlements are not authorized for this position	Yes - Yes, entitlements for payment of basic moving expenses, as required and to the extent allowed by the Federal Travel Regulation (FTR) 302-3.101, are authorized for eligible applicants changing duty station when the change meets the distance tests as provided in FTR 302-1.1 and 302-2.6. All moving expenses are taxable.
Fisheries and Ecological Services (Ecological Services)	Anchorage Fish and Wildlife Conservation Office, Anchorage, Alaska	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	Occasional Travel	Valid State Driver's License	Two positions for Ecological Services/CPA regulatory biologists in the Anchorage Fish and Wildlife Conservation Office (field office). The candidates will be responsible for review and analysis of projects, development of recommendations, status assessment of species, and other similar regulatory duties. Positions also involve proactive conservation efforts such as working with partners and engaging in outreach; and applying knowledge of environmental laws and regulations (ESA, NEPA, etc.)	No	No
Fisheries and Ecological Services (Conservation Planning Assistance)	Fairbanks Fish and Wildlife Conservation Office / Fairbanks / Alaska	This position is suitable for telework only during an emergency or natural distaster	Occasional Travel	Valid State Driver's License	Duties include proactively fostering partnerships with state, federal, and other stakeholders to achieve their development goals while conserving fish, wildlife, and their habitats. Utilizing persuasive written and oral communication addressing stream and wetland hydrologic and biologic functions, mine-land and stream reclamation practices, wetlands compensatory mitigation recommendations, oil spill planning and response, landscape plans, and potential project impacts with GIS. Creating outreach tools (factsheets, BMPs, videos) and working in boreal, arctic, and permafrost ecosystems.	No	No

Marine Mammals Management	Anchorage, Alaska	This position is suitable for telework only during an emergency or natural distaster	25% or Less	Valid State Driver's License	This position will be responsible for working across offices to insure proactive conservation measures were considered during environmental analyses. Conducting proactive conservation initiatives for project planning and conservation of fish and wildlife resources and building partnerships for conservation particularly with Alaska Natives, State and Federal Agencies, NGOs, and industry. Implementation of the Marine Mammal Protection Act, the Endangered Species Act, and the National Environmental Policy Act.	No	No
Marine Mammals Management	Anchorage, Alaska	This position is suitable for telework only during an emergency or natural distaster	25% or Less	Valid State Driver's License	This position will be responsible for implementing the Marine Mammal Protection Act's requirements for monitoring harvest of marine mammals by applying knowledge of fisheries and wildlife harvest monitoring, estimation, and research; as well as working with Alaska Native subsistence hunters and their communities. .	No	No
NWRS	Kanuti NWR	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	25% or Less	Valid State Driver's License, Use of firearms for animal defense.	This position serves as the lead biologist for Kanuti National Wildlife Refuge based in Fairbanks, Alaska. Duties include planning, analyzing, and implementing biological programs using professional knowledge of and skill in applying the theories, principles, concepts, and methods of wildlife biology and wildlife and habitat management and conservation. Performing statistical analysis of biological data and interpreting results to prepare reports and transform findings into practical applications. Utilizing knowledge of Service program activities, policies and working relationships within the Service to implement program objectives and coordinate natural resource management programs within the Service, with state and federal agencies, Native organizations, public and private groups with opposing viewpoints. Utilizing knowledge of Native culture, tradition and use of natural resources for subsistence to interact in a culturally sensitive, tactful, and objective manner. Remaining abreast of current and emerging methods and techniques for use in planning and conducting natural resource inventory and monitoring. Designing and safely conducting a variety of biological surveys and investigations, including planning and implementing complex logistics in remote areas involving aircraft and motorized and non-motorized boats, in order to write biological reports, scientific papers, briefings, and the wildlife portions of environmental assessments.	No	No
NWRS	Kenai NWR, Soldotna, AK	This position is suitable for telework & the selectee may be allowed to telework with supervisor approval	25% or Less	Valid State Driver's License	Incumbent serves as the Fish and Wildlife Biologist at Kenai National Wildlife Refuge working under the direction of the Supervisory Fish and Wildlife Biologist. Duties include applying knowledge of the conservation and ecology of terrestrial and aquatic ecosystems; particularly knowledge of boreal forest and tundra plant and animal communities, and aquatic fauna.	No	No
National Wildlife Refuge System	Yukon Delta NWR, Bethel, Alaska	This position is suitable for telework only during an emergency or natural distaster	25% or Less	Valid State Driver's License	Responsibilities include planning, guiding, and implementing federal subsistence management programs on 26-million acres of lands in an Alaska refuge in coordination with the approximately 25 refuge employees; fisheries staff of Alaska Fish and Wildlife Field Offices; Alaska Department of Fish and Game; 56 tribes; and 48 village corporations. Incumbent serves as the point of contact with the Office of Subsistence Management for wildlife and fisheries subsistence programs and with the Alaska Migratory Bird Co-Management Council. Provide tribal consultation on subsistence issues.	In addition, relocation discretionary entitlements May be authorized for this position excluding contractor-provided home sale.	Yes - Yes, entitlements for payment of basic moving expenses, as required and to the extent allowed by the Federal Travel Regulation (FTR) 302-3.101, are authorized for eligible applicants changing duty station when the change meets the distance tests as provided in FTR 302-1.1 and 302-2.6. All moving expenses are taxable.
